Quality • not only on the surface®

SAND-PERFECT 100

The Sand-Perfect 100 is designed for sanding of all kinds of edges and items with complex contours. The table makes it easy to handle the workpieces and any unnecessary lifting of the items is avoided.

The Sand-Perfect 100 can be delivered with height adjustable core which ensures an optimal usage of the sanding brushes, and furthermore, you are able to have cores with different diameters for sanding of different profiles.

The Sand-Perfect 100 is equipped with a tiltable shaft so that it can work with both a Flex Trim disc, and a traditional drum from Flex Trim.

The Sand-Perfect 100 is easy and simple to operate via a control panel at the front of the machine. The Sand-Perfect 100 has height adjustable rubber feet which eliminate all vibrations.
